Attorney Docket No.	118.002US01	
Title: USE OF UBIQUINONE Q10 FOR THE LOCAL TREATMENT AND PREVENTION OF POST-SURGICAL OPHTHAMOLOGIC PATHOLOGIES		

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Examiner Saucier initiated a telephonic interview on February 3, 2004 with Applicant's representative, Thomas W. Leffert, to note that the subject case appeared to be in condition for allowance; however, certain documents, including certified copies of priority documents and prior art references, were missing from the Patent Office's file wrapper. Applicant notes that the Examiner's Interview Summary mailed February 4, 2004 states that the missing documents "have been lost in transit and are no longer associated with the case." Applicant notes that the missing documents were received by the Office as evidenced by the enclosed copy of the return postcard, indicating receipt of all documents via express mail at the OIPE on July 22, 2003.

In an effort to restore the Office's copy of the case file, Applicant has enclosed courtesy copies of the Form 1449 and the identified references. Additionally, Applicant has enclosed the face sheets of the certified copies of the Italian and PCT priority documents, identified as 1307281 and PCT/IT00/00434, respectively, along with a courtesy copy of the published PCT application. Although Applicant is attempting to procure replacement certified copies of the priority documents, and will supply them to the Examiner when they are made available to Applicant, Applicant has been unable to obtain certified copies in the time period set to reply to the Examiner's Interview Summary. However, in view of the return postcard indicating receipt of the originally filed certified copies, Applicant believes it has fulfilled any requirement for timely submission of the documents.
